

# PLAY

in the pandemic

Age 4+

Through stories we can stay connected to friends and families. Could you create your own story using five objects, let your imagination run wild!

## What you will need...

A pillowcase/bag/bucket and five small objects. These items could be anything from a soft toy to a pencil, and even a key, coin or train ticket!

## What to do:

1. Ask a friend or family member to join you for story time
2. Find a pillowcase/bag/bucket and put five things in it
3. Create your own story using five objects

## Inspiration

Are your objects travelling anywhere? Do they have names or personalities? How would you use some of your objects if you were going on an adventure?
